

FULVIC AND HUMIC ACID BRING BALANCE TO HUMANS AND NATURE

MUD FEVER

PrimeFulvic gel & PrimeHumic. The solution against mud fever

Humic compounds, including Fulvic acid, are natural antioxidants and promote vitality and resistance. PrimeFulvic gel works as a repairing agent for damaged skin. PrimeHumic is good for resistance and promotes the body's natural defense system. This combination ensures preventive maintenance of optimal skin (PrimeHumic) and repairs damaged skin (PrimeFulvic gel). PrimeFulvic gel is suitable for red and sensitive skin and the gel cools immediately.

Practical example

Horse:

- KWPN
- 2 years
- Suffering from intense mud fever

Therapy:

- Apply gel to the spots twice a day
- 5 grams of PrimeHumic once a day
