

FULVIC AND HUMIC ACID BRING BALANCE TO HUMANS AND NATURE

TAIL AND MANE ECZEMA

PrimeFulvic gel & PrimeHumic. The solution against tail and mane eczema

Humic compounds, including Fulvic acid, are natural antioxidants and promote vitality and resistance.

PrimeFulvic gel works as a repairing agent for damaged skin.

PrimeHumic is good for resistance and promotes the body's natural defense system. This combination preventively keeps the skin optimal (PrimeHumic) and repairs damaged skin (PrimeFulvic gel). PrimeFulvic gel is suitable for red and sensitive skin and the gel cools immediately.
